 1. **Question #1:** Growth in the Village population. The Village uses census data which is available on the census Canada website. The data from the 2021 census will be available in Feb. 2022
 2. **Question #2:** Advise if any of the recommendations in the EAC Strategic Plan of 2018 have been implemented. Bob to advise.
 3. **Questions #3:** Advise if the Village has moved on partnerships with other regional communities on a joint contract for waste management companies. --When contacted by Public Works the majority of our neighbours have signed long term contracts making partnerships more difficult. However, not being hindered by a long-term contract allows our municipality to join the first wave of municipalities to enter the producer pays program of standardized recycling.
 4. **Question #4:** Statistics for the use of the landfill site for the latest 5 years available. --Brad will be back from his vacation shortly and I will request the information from him. What statistics are you interested in or is it a total of tons of waste and tons of recyclables?
