Pat Watson, 423 Brock Street East

She inquired as to what is a Part Lot Control.

Jill Eagle replied that Part Lot Control is put onto a large lot of land in order to control development in the urban core. Once a property with a Part Lot Control has been developed, the Part Lot Control is removed. It is simply a development tool for the municipality to use to control development. The Part Lot component allows small sections of the larger property to be developed.
