To: Rural Municipalities Within the Rideau Watershed
Date: July 16, 2021
Subject: Rural Clean Water Grants Program Opportunity

The Rideau Valley Conservation Authority would like to share with you our **voluntary grants program** that can potentially help you, your business or someone you know get financial and technical assistance for that next project, while also contributing to a healthier environment.

Grants will be provided to eligible rural landowners and farmers who undertake work that helps protect water quality. Project categories include: well decommissioning, septic repair/replacement, erosion control, manure storage, controlled tile drainage, watercourse fencing, and many more. Please note that those interested in applying for grants are required to contact the RVCA prior to starting any work.

We would like to take this opportunity to thank you in advance for your cooperation and referring the Rural Clean Water Program to your customers. We would be most appreciative if you would continue to refer clients to RVCA at 613-692-3571. If you would like to promote the Rural Clean Water Grants Programs, please feel free to circulate the brochure included.

If you, or your business, do not wish to be contacted for future grant opportunities please feel free to let us know at your convenience.

We sincerely thank you for your time and consideration and hope to hear from you soon.

Questions? Or to apply for funding please contact:
Derek Matheson, Rural Clean Water Program Manager
